### Optional:

A serger or coverstitch machine is not required but always fun to use if available.

In order to pick the right size, you need to compare your measurements with the measurements from the size guide.

For top garments (dress, blazer, coats, tops..) base your size decision according to the bust circumference.

For bottom garments (skirts, pants, shorts...) base your size decision to the hip circumference.

If your measurement fall between two sizes, you should pick the size which your measurement comes closest to.

For example if your bust size is 79cm or 31" choose XXS.

If you fall exactly into the middle (+/-2) go to higher size for close fitting garments and to the smaller size for loose fitting garments.

**IMPORTANT!** In case you fall into one size according to your B measurement (for example 36) and a different size according to your W and H measurements (for example 40), then you'll have to adjust the pattern at the waist and hip lines.

## Choosing Your Size

### ATTENTION!

Our brand uses **different size charts** for different patterns.

Make sure to **check your size** for each project. Also do not rely on the ready to wear garment size you buy in shops.

### How to measure your size:

The best thing you can do is, to get a friend or a family member to help you.

The measurements should be taken in the same Underwear / undergarments in which you will wear the garment.

## Size Chart

The following 3 measurements we need: **Bust, Waist and Hip.**

The measurements of the Bust and the Hip should be taken in the most protruding part of the body. The measurement tape should be taut but it shouldn't deform your body. If you can still put a finger between the measurements tape you are good.

| SIZE /CM | XXS   | XS    | S     | M    | L    | XL   | XXL   | XXXL  |

## Recommended Fabrics

This pattern is best suited for Light weight Polyester-elastane Blends, Nylon Spandex, Rayon Spandex, Stretch Satin, Velvet, etc.

Chosen fabric minimum 5% spandex required.

Most natural fibers shrink in the wash, be sure to have enough fabric in case of shrinkage.

The fabric requirements assume that the fabric is already pre-shrunk.

Before we cut the patterns on the fabric, you should try to get as much shrinkage out as possible (wash, steam, iron, dry). Natural materials usually need a lot of steam to shrink the material. It is better to shrink it now than after cutting as your garment will not be the correct size.

Also, buy 5% more fabric in case of shrinking.

Also check to make sure the grain-line of your fabric has not been distorted.

# Printing Instructions

Let us print out the pattern.

There are 3 options on how to print the pattern:

A4 and US Letter size - these are tiled versions which you can print out at home on your desktop computer.

AO size - You can go to a copy shop and print it on a big scale. The nice thing is it is one sheet of paper and saves you the time of sticking pages together.

## PRINTING CHECKLIST !

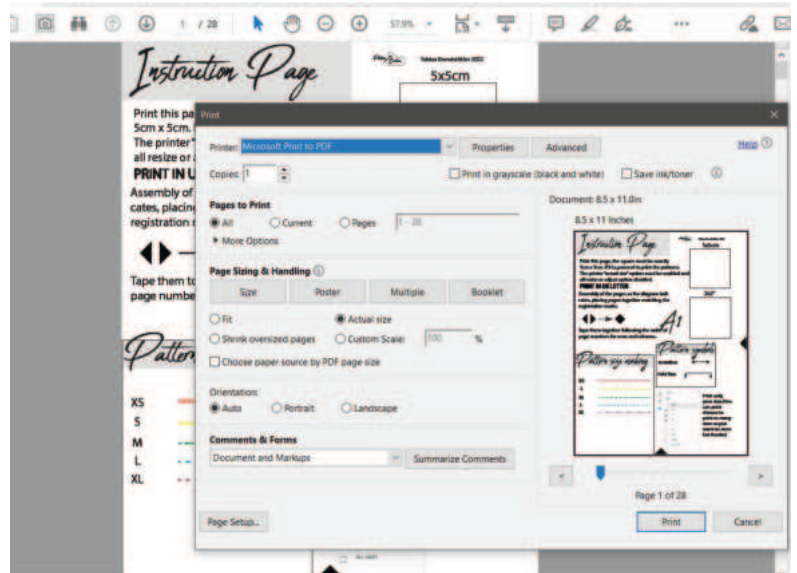

- Select your layers
- Enter print pages
- Orientation set to auto
- Set scale to 100%
- Print the Test Page
- Check your scale

Two test squares are provided to help ensure your pattern prints in the right size.

Depending on the test square you measured, it should be either 5cm x 5cm or 2" x 2".

If it has the wrong measurement, check your printer settings and try again.

NOTE : The pattern will not sew in the correct size if the Test Square does not measure correctly.

## IMPORTANT:

Do not open or print the pattern in Microsoft Word.

In order to print this pattern you need the Adobe Acrobat Reader software. This software is available for free download on the internet.

# Fabric Cutting Instructions

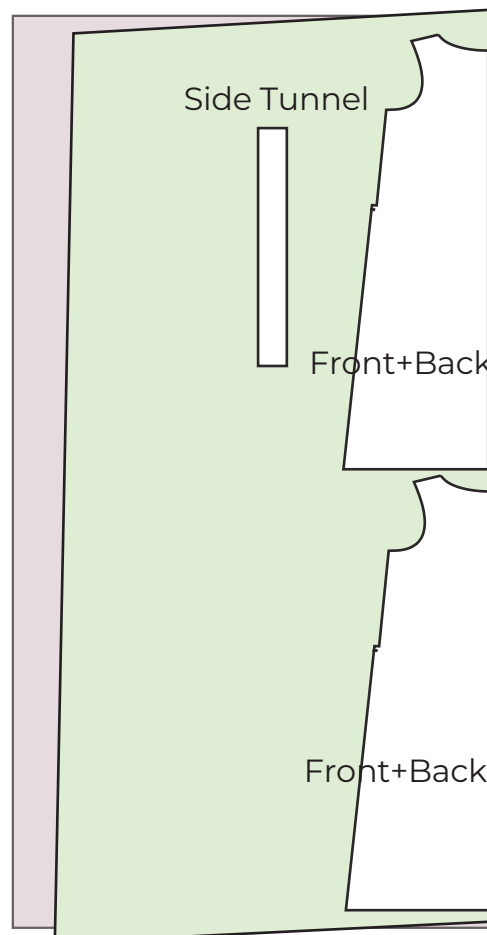

| Pattern Piece Name | Pieces to Cut  |
|--------------------|----------------|
| Front+Back         | Cut 2 - 2 main |
| Side Tunnel        | Cut 2 - 2 main |

Mirrored pieces are pieces of the same exact shape, but cut in opposite directions, so as to be symmetrical mirror images of each other.

The fastest way to cut mirror images is to fold your fabric RIGHT sides together and cut the piece out, cutting through both layers of fabric.
